**RE: Chemsol Superfund Site
Extraction Well Placement**

Dear Mr. Robinson:

At our January 23, 2001 meeting we presented to EPA a proposal for alternate extraction well locations, and we have had several follow-up discussions since then, in our February 14, 2001 teleconference and then again at our March 13, 2001 meeting. In order to facilitate continued dialogue with the agency on this matter, Brown and Caldwell has prepared the attached technical evaluation which I am forwarding for your consideration. We believe that the material presented in this technical evaluation presents a sound scientific basis for the placement of extraction wells as we have proposed.

Please do not hesitate to contact me with any questions or comments you may have, and we look forward to finalizing this item and proceeding with the Groundwater Remedial Design Work Plan.

Very truly yours,

de maximis, inc.
